DANDELION YELLOW	Y77	DY	AC10877	Solid

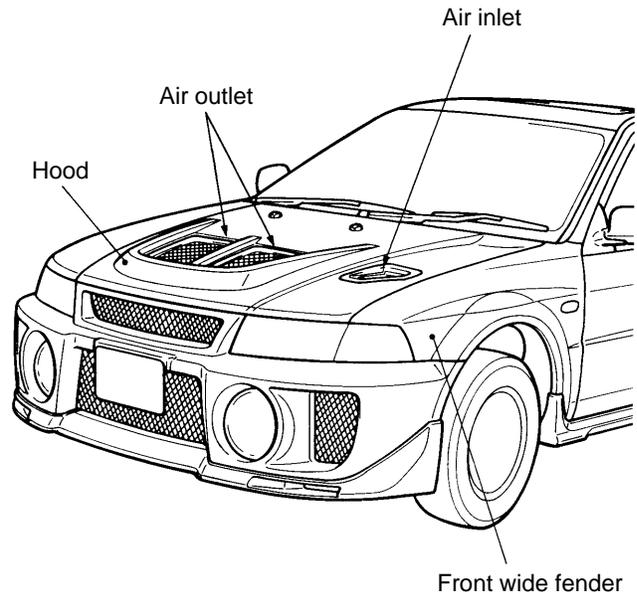

## HOOD AND FENDERS

- Like the hood of the EVOLUTION-IV, the hood is made of aluminum. Its shape has been revised.
- Front wide fenders have been adopted to match the wider front tread. They are made of aluminum for lightness.

<EVOLUTION-IV>

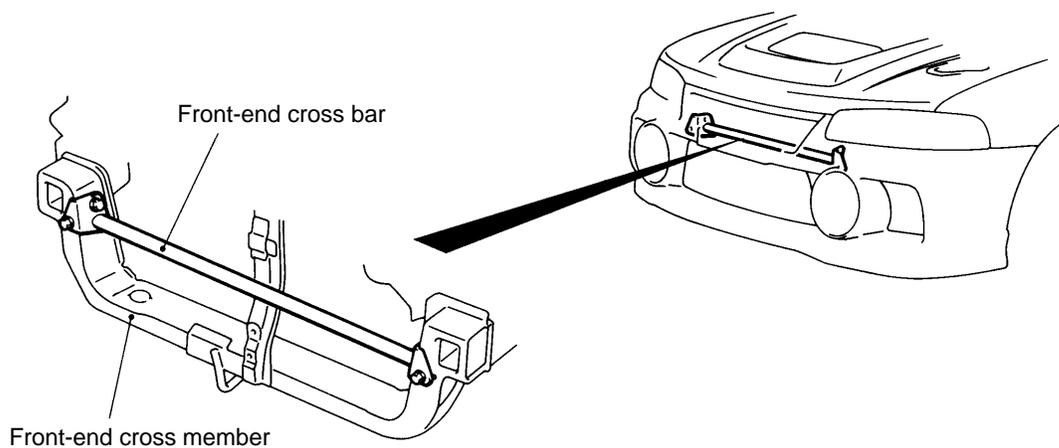

<EVOLUTION-V>

## FRONT-END CROSS BAR <RS>

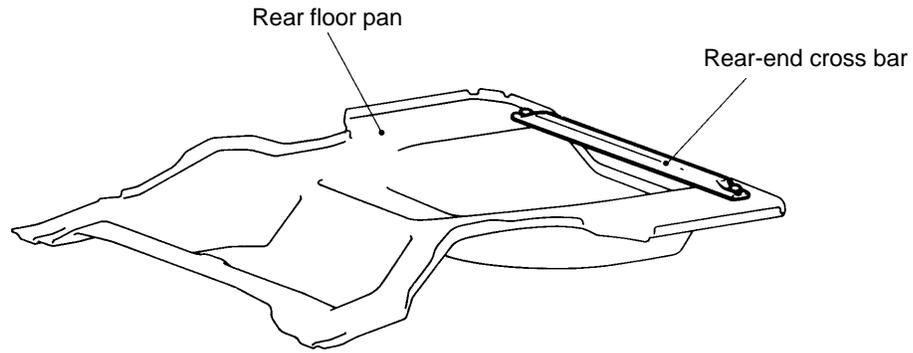

The front-end cross bar, which has a highly rigid pipe construction, links the left and right sides of the front-end cross member, thereby increasing the body's rigidity.

18M0346

**REAR-END CROSS BAR <EVOLUTION-V RS>**

The rear-end cross bar is fitted at the top of the rear floor pan to increase the body's rigidity.

18M0466

**WINDOW GLASS <EVOLUTION-V>**

The window glass has been revised as follows:

Item	EVOLUTION-IV			EVOLUTION-V		
	Type	Tint color	Thickness (mm)	Type	Tint color	Thickness (mm)
Windshield	Laminated glass	Green	5.2	Laminated glass	Green	4.4
Front door window glass	Tempered glass		3.5	Tempered glass		3.1
Rear door window glass
